Candido

Everything you need for your
next big step

WHO ARE WE?

Nicolò Pandolfo

Co-Founder
CEO

Marco Tasca

Co-Founder
CTO, COO

Marco Lodovici

Head of Frontend
Development

DIFFERENT PATHS, SAME CHALLENGES

What brought us together were the hurdles we overcame along our ways, embarked on different journeys and pursuing different goals.

Opportunities are not centralized

No central hub leads to dispersion and time wasted

No showcase for non-traditional opportunities

Grants, lottery systems, certifications need visibility

Repetitive and non-uniform processes

Same info across multiple applications

Lack of constructive feedback

How to improve and adapt?

CANDIDO PLATFORM

Designed to connect,
simplify, and centralize.

- More than just job positions
- One-time data entry
- Personal documents vault
- Automatic data extraction
- Integrated feedback system
- AI-powered letters tailoring

Everything in one place, for
effortless application processes.

AN OPPORTUNITY OR THE OPPORTUNITY?

Many paths lead to a career, only one leads to your dream.
Which one will you take?

CANDIDO EDGE

Smart, personalized, future-driven.

Stop searching, start discovering.

Our AI-powered advisor goes beyond job listings, **it understands you**. By analyzing career paths, industry trends, and key documents, it uncovers the most valuable opportunities tailored to your current situation and future ambitions.

Smart document parsing

Key insights from resumes and relevant documents

Career & Trend analysis

Insights from real-time industry trends and evolving career paths.

Growth opportunities discovery

Not just jobs, but learning programs, networking events and career-boosting experiences.

Personalized opportunity matching

AI-driven recommendations based on your skills, interests, and goals.

TURNING VISION INTO REALITY

We transform fragmented opportunities into a centralized, seamless experience. Our development process focuses on making the platform as intuitive and accessible as possible, ensuring that every step is effortless, efficient, and truly impactful for users.

Platform architecture development

Designing the core structure and infrastructure

Form builder creation

Enabling seamless and customizable applications

MVP Launch

Releasing the first version to the public

User and opportunity onboarding

Growing the platform with active participants

User feedback collection

Gathering insights to refine the experience

Continuous improvement

Iterating and enhancing based on real-world use
